Rep >= 5: vouchers pay face value +1 (trusted).

Rep >= 8: trade with 2 players per turn.

Miss the deadline -> automatic default, lose Rep.

Treaty Table

A promise with teeth – put something on the line

A promise with teeth. You put up coins or resources as collateral. Break it, and you lose your stake to the other party.

LIFECYCLE

STAKE TYPES

Coins "2 coins", "5 coins"
Resources "1 food", "1 wood, 1 tools"
Mixed "2 coins, 1 food"

LIMITS

Active per player 2
Max coins / stake 5
Max resource units 3
Makes per turn 1

CONSOLE COMMANDS

```
sov treaty make "help each other" \  
  --with Bob --stake "2 coins" \  
sov treaty list  
sov treaty keep t_0001  
sov treaty break t_0001 \  
  --breaker Alice
```

WHAT TREATY TABLE IS NOT

Not a courtroom. *There's no judge – the table decides.*
Not permanent. *Treaties have deadlines. Everything expires.*

Not governance. *No votes, no policies, no alliances.*
Not required. *You can play a full game without one.*

It's just stakes. Put something on the line, or stick with promises.

HOW TO USE

Buy / sell	Land on Market: buy or sell up to 2 resources. Buy = pay the posted price, take 1 from supply. Sell = return 1, receive buy price - 1 (min 1).
Market Day	Prices stay at 2. Supply never runs out. Market-shift events print flavor only -- no mechanical effect.
Town Hall	Start supply 8 / 10 / 12 by player count. Base price 2. Supply <= 2 -> price +1. Supply 0 -> cannot buy. Event price shifts last the round, then reset. Clamp 1-4.
Upgrades	Workshop: 2 coins + 1 Wood. Builder: 3 coins + 1 Tools (still needs Reg >= 3).
